## WHO WE ARE

### **Mission**

Xcel has been serving as a mentoring network to fuel young students to reach their full potential through a network of wise, seasoned trained mentors in South Florida. Xcel combines the power of transformative mentoring with the accessibility of a mobile training unit, to facilitate hands-on learning and hard and soft skill development for youth ages 13-25. Xcel's Fueled with Purpose curriculum is composed of life-skill character development training featuring eight main principles: goal setting, time management, health & fitness, financial stewardship, relationships, relational intelligence, conflict resolution, and job skills. Xcel's innovative Worx Mobile Training Units allow hands-on access to tools, materials, and experiential learning that has led to higher success rates and has increased the likelihood that Xcel participants have the hard and soft skills credentials that employers are looking for.

### **History**

Xcel has been serving youth in Palm Beach County for over five years, under the umbrella of Xcel Strategies Inc. Most recently, we incorporated in Florida under our own 501c3, Florida Mentoring Network DBA Xcel Mentoring Network. This allows Florida to operate administratively and financially independently as an affiliate of Xcel Strategies Inc. Xcel Florida is currently serving over 200 youth with a strong Board of Directors and staff composed of our Executive Director, our Director of Operations, four part-time Mentor Directors, and over 30 volunteer mentors.
